THE OFFICIAL NEWSLETTER OF THE CITY OF OAKLEY

THE OAK LEAF

2018 - 2020 Strategic Plan Development Oakley Residents Encouraged to Participate

The City is gearing up to develop the 2018-2020 Strategic Plan and we need you to be a part of the process. The Strategic Plan dictates the direction and priorities for the following two-year period by delineating goals and action steps that will accomplish said goals. We aim for this to be a community driven process by soliciting resident input over months.

The community-driven process commences with a citizen satisfaction survey. The survey is mailed out to a software-selected, random sample of 500 residents subscribed to garbage service in Oakley.

The purpose of the survey is to measure our residents' satisfaction with our overall performance and satisfaction with specific services, as well as the quality of life. If you are among the 500 to receive our survey, please return it in the stamped envelope provided. If you're not among the 500, don't worry, as the same survey is made available online for the broader community to participate through our website. *Continued on page 3*

Community-Wide Strategic Planning Meeting in 2014

Leadership Academy Graduates Two Classes this Fall

The City of Oakley, in partnership with *You, Me, We=Oakley!* (YMWO), has graduated the inaugural class of the Leadership Academy offered in Spanish. This builds on the Leadership Academy (in English) that this fall graduated its fourth class.

Inside this Issue

Progressive Technologies	2
Property Taxes Explained	3
Police Don Body Cameras	4
Grants for Traffic Signals	4
Leadership Academy	5
Downtown Revitalization	6
Entrepreneur Training	7
Upcoming Family Events	8
Commercial Development	9
City Calendar	12

The *Academy in Spanish* was made possible by grant funding received from the San Francisco Foundation in support of the YMWO goal of increasing civic engagement across all demographics.

“We will continue to offer the Academy so long as residents continue to sign up. We limit the class size to allow for greater engagement of the participants and a more intimate setting, conducive to learning and discussions,” stated Nancy Marquez-Suarez, Assistant to the City Manager.

Mayor Sue Higgins who welcomed the class members for their first meeting, said “I’m excited to have expanded the program and am eager to see the fruits.” *Continued on page 5*

Progressive Technologies

The City of Oakley is a progressive organization that strives to continually find ways of being more effective and efficient in the delivery of services to our residents. This commitment was recognized by the Contra Costa Transportation Authority (CCTA) who in 2016 selected the City of Oakley as the first municipality in the county that would be supported through funding to start the utilization of Smart City concepts.

Smart City technologies are those which enhance service delivery, lower operational costs, improve residents' quality of life, and serve as a catalyst for accelerating the City's ambitions.

Through this funding a consultant worked with Staff to develop a comprehensive City of Oakley Smart City Program. This Program identifies priorities and steps necessary to accomplish the goals of an even more efficient local government. Unfortunately, the failure of Measure X (which was the anticipated funding source) in the 2016 election, has delayed the implementation of some components while other sources of funding are explored.

Meanwhile, the City Council's direction during the Strategic Planning Meeting earlier this spring was clear, "continue to maintain only the necessary staffing and before adding staff, explore technologies that make day-to-day tasks more efficient, this in turn will allow each staff member to do more and delay the tipping points requiring new staff." Oakley has a much more modest budget than surrounding cities, which requires the most prudent and strategic use of all funds.

The lean operations are substantiated by the California State Controller's Report. For example, Oakley's General Fund is \$17 million, compared to Brentwood and Antioch's budgets that are well over \$50 million. The larger budgets are also reflected in the staffing levels and wages. Oakley's ratio of employees to residents is 1 employee to 451 residents, compared to Brentwood's 1 to 140 and Antioch's 1 to 214.

Some of the force multiplying endeavors pursued include:

- The purchase of new payroll and human resources software modules. This moved away from the manual and time consuming process of processing payroll, then charging expenditures back to journals by automating the process. Additionally, the HR system tracks all employees' data needed to produce a paycheck, as well as pay history, job history, training, disciplinary actions, and special skills all in one place. Lastly, employees now get to complete timecards online.
- A VOIP phone system. The City's phone system was an outdated PBX system that was unable to meet the growing needs of the City. The City installed a new voice-over IP (VOIP) system using our current internet connection that offered modern features and security. The new system is fully expandable and has added features such as virtual fax machines and the ability for staff to receive phone messages through their email for greater efficiency.
- The City has also acquired a new electronic agenda management system called Granicus. The system has helped with efficiency of process including internal electronic routing of staff reports, substantially reducing paper copies of the agenda packet and allowing for electronic minute taking. The system will make it easier for residents to access City Council Meeting information, including the video recording. Soon, the video recording of the meetings will be streamed live. *Continued on page 6*

2018 - 2020 Strategic Plan Development *Continued from page 1*

The survey will be available in late January. We'll also ask residents to visit *Engage in Oakley*, our online engagement forum, to prioritize the areas of focus and to provide feedback regarding the goals.

The Areas of Focus are:

1. Business & Job Growth/Downtown & Main Street Revitalization
2. Planned Quality Growth
3. Community Infrastructure & Traffic Safety
4. Public Safety
5. Parks, Streetscapes, & Recreation Opportunities
6. Financial Stability & Sustainability
7. Political Leadership
8. Operational Excellence

Community-Wide Strategic Planning Meeting in 2016

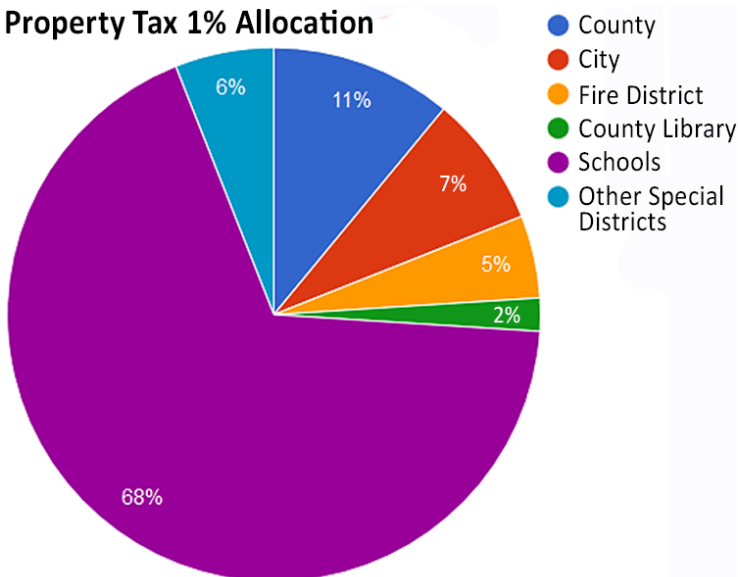

Additionally, the City Council hosts a Community-Wide Strategic Planning Meeting during which residents will break out into smaller discussion groups facilitated by City staff to brainstorm specific action items within each of the Areas of Focus. Please join us for this meeting which will take place in April.

Thereafter, the Council weighs all the input received during a City Council work session. The work session allows yet another space for residents to provide new input or comments in reaction to the notes from the community-wide Strategic Planning Meeting. If you are too busy to engage otherwise, this process is your chance to shape the activities to be accomplished in the next two years.

Where do our property taxes go?

The 1% property taxes are always a part of financing any city's operations, although not as significant as you might think. While many Oakley property owners' tax bills include park assessments, bond assessments, and/or police service special taxes, the only general purpose tax on the bill is the 1% county-wide tax (restricted to 1% pursuant to Proposition 13). The property tax is shared by all of the various governmental agencies providing service to the property and its use is discretionary.

Property Tax 1% Allocation

This chart shows an estimate of how the County Auditor-Controller allocated the 1% property taxes that Oakley property owners were levied in fiscal year 2016-2017.

As you can see, approximately 7% of the total levy was allocated to the City. In real dollars, Oakley received approximately \$6.2 million.

Please note that the Auditor-Controller has no discretion in the allocation process. The State has defined the allocation methodology and the Auditor Controller is required to make the allocations pursuant to State Law.

Oakley Police to Wear Body Cameras

One of the trends sweeping across law enforcement is the use of body-worn cameras for police officers. In the wake of several controversial incidents, many communities asked for more transparency within their police departments.

Soon, all Oakley Police Officers will begin using body-worn cameras. The decision to use cameras was not born in controversy, rather it is being done to protect our staff. The studies show the number of use of force incidents and the number of complaints are unchanged with the use of cameras. What is not discussed; however, is the outcome of those complaints. We believe the use of cameras will exonerate the actions of our staff in nearly every case. In those cases where our staff is acting improperly, the video will assist in training and changing those unwanted behaviors.

It's been said that a picture is worth a thousand words. If this is true, what will video of a suspects criminal behavior be worth? The use of cameras will provide significant evidence in criminal prosecution. Further, video footage will go a long way in resolving complaints regarding our officers saving valuable time and money. There are still hurdles to cross in this arena. As with many things, the technology is outpacing the law. When videos can be reviewed, and by whom, are still questions to be settled in the courts. In the coming months and years these issues will be sorted out.

Grants Received for Synchronization of Traffic Signals

The City received a grant from the Metropolitan Transportation Commission (MTC) for the Program for Arterial System Synchronization (PASS) project to make major city streets safer and more efficient. This is the second phase of our Smart City effort to coordinate signals along Main Street and Empire Road. The first phase coordinated five intersections and the second phase coordinated additional 11 intersections. The project also analyzed pedestrian crossing time at crosswalks and yellow times for vehicles to clear the intersection to meet the current California Manual on Uniform Traffic Control Devices standards.

The project studied all traffic signals along Main Street and Empire Avenue to maximize the efficiency of moving motorists along these corridors during peak hours. The signals are coordinated from Monday to Friday between the morning peak traffic, mid-day peak traffic, afternoon school peak traffic, and the late afternoon peak.

Traffic signal coordination can best be defined as synchronizing two or more nearby signals on a main corridor so that vehicles can progress along the street with minimal stops and delays. A signal coordination plan is developed based on a number of factors, mainly speed, volume, and intersection spacing. The signals, after the coordination plan is implemented, need to be kept "in sync". The signals are kept "in sync" using a GPS technology. This allows for the controllers to operate and synchronize the green time for each direction of travel on the main corridor.

5 Year MTC Projected Benefits

Auto Travel Time Savings:	8%
Average Reduced Signal Delay:	12%
Average Reduced Stops:	18%
Fuel Consumption Savings:	6% (29,400 gal)
Total Emissions Reduced: ...	1.6 tons

Overall, the project benefit/cost ratio for this effort is calculated to be 10:1. Additional benefits include increased pedestrian traffic safety due to updated crosswalk times that meet the current standard; and, traffic safety with updated yellow clearance times based on posted speed limits. City staff will continue to monitor these intersections and make the necessary modifications to meet changing demands in our community.

Leadership Academy Graduates Two Classes this Fall *Continued from page 1*

A class at a time, we're building a stronger community through well-informed and engaged residents."

The City first offered the leadership academy in the fall of 2014. The program is designed to provide community members with an understanding of the workings of their local government and to better equip the community to fully participate in the decision making process.

Front Row Left to Right: Roberto Gomez, Juana Gomez, Karla Crosse, Andrea De La Cruz, Yareni Reyes, & Guadalupe Gutierrez. Back Row Left to Right: Victor Nicole, Blanca Cruz, Luz Arciniega, Laura Saldana, Martha Garcia, Carmen Esparza, Marisol Martinez, Kenneth Boatright, Norma Ramirez, Maria Romero, Karina Rodarte & Yolanda Haley. City of Oakley Launches *OpportunityOakley.com* to Attract and Grow Business

Oakley's Economic Development Division has launched a new online presence to help attract new investment and business growth in the community. OpportunityOakley.com is a streamlined, mobile-friendly website that offers access to the latest business intelligence tools, powered by GIS Planning. "Market research shows more than 97% of site selectors research business locations online before contacting city officials," explains Pablo Monzon, managing director of GIS Planning.

As site selectors or prospective investors assess possible locations, they are able to obtain robust, high-quality, Oakley-specific data on more than a thousand variables. "This means that Oakley is open for business 24 hours a day, seven days a week", explains Dwayne Dalman, Oakley's Economic Development Manager.

The website will also be a tool to assist existing Oakley businesses. Existing or prospective business owners and entrepreneurs will be able to obtain Oakley-specific market research data on city demographics, labor force, consumer spending, industry revenue, and more. They will also be able to compare Oakley to other communities. "The Oakley business community will now have access to data and other market insights they need to make smart, informed decisions," stated Dalman.

1st Oakley-Knightsen Fire Dept. Born from 1924 Tragedy

Oakley History

The Oakley-Knightsen Fire Department was formed after the "Great Fire" of 1924.

The massive fire brought to ashes more than a dozen structures along both sides of Main Street before being extinguished. After such incident, and under the leadership of Anthony Dal Porto, twenty men started the volunteer fire department to protect the town.

The names of dozens of volunteer firefighters who protected Oakley over the years appear on a Memorial at our new Station 53 which is located on O'Hara Ave.

Today Oakley is served by paid professional fire fighters of the East Contra Costa Fire Protection District.

Downtown Revitalization- Another Phase Completed!

Another phase of Oakley's Downtown revitalization is now complete. This most-recent project is a key step forward to create a more pedestrian and business-friendly Downtown.

The key features of the project included a wider roadway, new curb, gutter, stamped and colored sidewalk, decorative street lighting, median islands, landscaping, new benches, and street furnishings. The project also enhances the safety for pedestrians and motorists through the installation of a new traffic signal at the intersection of Norcross Lane and Main Street and the construction of two new pedestrian crosswalk safety systems at intersections.

New angled parking along Main Street provide a more safe and structured parking configuration, along with additional parking in Downtown. A new, interim parking lot of over 40 parking spaces has also been installed behind the businesses nearest to Norcross Lane.

The centerpiece of the Downtown Project is the gateway monument located at intersection of Main Street and Second Street. The new monument is a reflection of the Oakley community and it being in the heart of the Delta.

Progressive Technologies Continued from page 2

- Synchronization of traffic signals along Main Street and Empire Avenue. This is accomplished through a grant received through the Metropolitan Transportation Commission to install GPS clocks to keep the signals in sync during peak hours.
- Downtown traffic signal modernization by installing up-to-date technologies supporting adaptive signal systems such as upgraded traffic signal controllers, video detection cameras, fiber optic communications, and a central traffic management system to remotely access the cameras to monitor real time traffic operations. CCTA has allocated funds to help fund this project to improve mobility for all users and enhance traffic operations.

Coming Soon!

- The Recreation Division plans to roll out Registration Software in 2018 to better accommodate our customers and streamline our processes. The new software will allow users to register and pay for their classes and programs from the convenience of their homes. Be on the lookout for more information in the Spring 2018 Recreation Guide.
- *NeoGov*, a human resource management software, will be automating much of the recruitment, selection, and onboarding of employees. The new system would also allow candidates to apply and track the status of their application online.

4th Annual Entrepreneur Training Program Starts This March

If you are a small business owner looking to improve your business, or you are serious about starting up a business, then the City of Oakley's Entrepreneur Training class may be right for you. The class is designed to walk students through the creation of a business plan, in order to help them gain the tools needed to successfully establish or grow a business. This program is important to the residents of Oakley because it will encourage long term business growth and give our business owners the tools to succeed in Oakley!

The classes will be held at City Hall (3231 Main Street) on Tuesdays and Thursdays from 9:00 a.m. until noon. The classes run from March 6th through May 17th. Interested individuals are encouraged to attend one of three informational sessions, held on January 11th, January 30th, and February 15th from 9:00 – 10:30 a.m. at City Hall.

For more information, please visit the Economic Development page of the City of Oakley website (www.ci.oakley.ca.us) or contact Dwayne Dalman, Economic Development Manager, at dalman@ci.oakley.ca.us.

Graduates of the 3rd Annual Entrepreneur Training Program

Oakley Participates in Joint East County Marketing Effort

Oakley has joined with the cities of Antioch, Brentwood, and Pittsburg to launch a joint website, called EastCounty4You.com. The new website promotes the regional advantages of East County as a location for business and new development investment. The site has a landing page promoting the benefits of East County, as well as the advantages of each of the four cities. For further information, the site connects users to the individual Economic Development websites of each of the four participating cities.

What building was this going to be and where?

The above image is a rendering of what was envisioned in 2003 as Oakley's future City Hall. The original plan was a 39,000 square foot building to be built in what now is the Civic Center Park. The cost to build that building was very high and it would have likely compromised the health of the two, large heritage oak trees at that site.

In 2006, a revised site plan was approved to combine the two existing 7,500 square foot buildings and add on to them to create the City Hall we have now. It was done much less expensive than the original plan, preserved the oak trees and allowed for the establishment of the Civic Center Park and Amphitheater. The new City Hall opened in 2007 and we recently celebrated the 10th anniversary.

Upcoming Family Fun!

Mark your calendars for more fun and excitement in 2018.

April 7 - 14: Science Week

A very popular event featuring exciting interactive workshops. Past workshops have included *Owls*, *Reptile Kingdom*, *Lego Engineering*, *Extreme Delta*, and more.

April 7: Youth Employment Workshop

Are you a teen looking for a job? Join the Youth Council to learn where to look for jobs, how to fill out an application, and how to interview professionally.

April 28: Rock the Chalk

Calling all artists! Join us at the annual *Rock the Chalk* event to showcase your creative designs.

May 5 - Oct: Movies in the Plaza

Movies in the Plaza kicks off on May 5th and continues into the summer with dates including June 16th and July 28th. August through October dates will be announced in the Summer Recreation Guide.

April 6 and May 18: Oakley's Got Talent

The Oakley Youth Advisory Council invites youth ages 6 to 18 for *Oakley's Got Talent* on April 6th to be a part of the 2nd Annual *Oakley's Got Talent*.

May 26: The 5th Annual Memorial Day Observance

Help us remember those who served by joining us at the Civic Center Park located at 10:30 a.m. for our 7th Annual Memorial Day Observance.

May 12: Taste of Oakley

The *Taste of Oakley* gives participants the opportunity to sample cuisine, Oakley restaurants and caterers. Past events have featured cuisine from Mexico, Italy, BBQ, comfort food, baked goods, and ice cream. Be on the lookout for more information regarding the *Taste of Oakley* scheduled for May 2018. Tickets sell out quickly.

July 7: Cityhood Celebration

Oakley's annual birthday bash will include jumpers, food vendors, music, and more. This event will culminate in a firework spectacular.

July 28: Main Street Car Show

This year's event will feature over fifty cars, live music, and more.

For more information about any of the programs mentioned contact 925-625-7041 or visit www.oakleyinfo.com.

Commercial Development Update

The City is experiencing an increase in commercial development and there are several projects that are in varying stages of completion. Now that the most recent phase of the Downtown Improvement has wrapped up, two projects will be coming out of the ground in the near future. Nature Properties will be developing the first phase of their project featuring a 20,000 square foot, two-story mixed use retail and office building located north of Main Street, between Second Street and Fifth Street.

Additionally, the City Council recently agreed to sell land at the northwest corner of Main Street and Norcross Lane to Medical Dental Plaza, LLC to construct a new 20,000 square foot, two-story medical office building. These projects will bring new office and retail spaces to the Downtown. Let's not forget the newly renovated brick building at 3530 Main Street, which will have a new restaurant tenant, Bistro le Punahale Tonnelie, in the coming months.

Further, the UPS facility on Live Oak Road is currently undergoing an expansion. The expansion will more than double the size of the facility and provide a new customer service center. There are also two self-storage projects currently being developed. One at the southwest corner of Laurel Road and Empire Avenue, which also includes a 7-Eleven gas station and mini-mart, and the other at 4700 Main Street, which includes a retail building along the Main Street frontage. The Laurel Plaza shopping center, at the northwest corner of Laurel Road and O'Hara Avenue, will see a new Chevron gas station, mini-mart, and carwash. Lastly, the existing McDonald's near Bridgehead Road will be receiving a facelift with a new facade and drive-thru configuration.

As for projects that are in the early stages of review and have yet to receive approval. Safeway has indicated they intend to develop the land they own at the northeast corner of Laurel Road and O'Hara Avenue with a new Safeway-anchored shopping center. A new restaurant building is also being proposed at the southwest corner of Main Street and Fourth Street; and finally, a new ARCO AM/PM gas station, mini-mart, and carwash is being proposed at 2140 Laurel Road.

Plans for any new development applications can be viewed at the City of Oakley Planning Division webpage through the City's website.

Proyectos de Desarrollo Comercial

La ciudad está experimentando un aumento en el desarrollo comercial. Hay varios proyectos que se encuentran en diferentes etapas de realización.

- El proyecto, Nature Properties de uso mixto a lo largo del lado norte de Main Street, entre la calle Second Street y Fifth Street. El edificio es de 40,000 pies y dos plantas. El piso de arriba ofrece espacio de oficinas, con tiendas abajo.
- El Consejo vendió el terreno ubicado en la esquina noroeste de Main Street y Norcross Lane. El plan es realizar un edificio de 20,000 pies de dos plantas el cual constará de oficinas médicas.
- Quizas tomaron nota de el edificio de ladrillo recién renovado en 3530 Main Street. Este edificio pronto tendrá un nuevo inquilino, el restaurante Le Bistro Punahale Tonnelie, el cual provera comida hawaiana y francesa.
- Las instalaciones de UPS en Live Oak Road están experimentando una expansión. La expansión duplicara sus instalaciones actuales y ofrecerá un nuevo centro de servicio al cliente.
- Al parecer a los residentes de Oakley les gusta almacenar cosas. Hay dos proyectos de “self-storage” que se están desarrollando actualmente. Uno se ubica en la esquina sudoeste de la calle Laurel Road y Empire Avenue, que también incluye un 7-Eleven de gasolinera y mini-mart.
- El segundo proyecto de “self-storage” se encuentra en 4700 Main Street. La fachada visible al frente ofrece espacios para comerciantes o negocios.
- McDonald’s cerca de Bridgehead Road renovara su fachada y va reconfigurar el “drive-thru.”

En cuanto a proyectos que están en las primeras etapas de revisión y aún no han recibido su aprobación: Safeway ha declarado su intención de desarrollar las tierras que poseen en la esquina noreste de la calle Laurel Road y O'Hara Avenue. Tambien se ha propuesto un edificio nuevo que será un restaurante en la esquina sudoeste de Main Street y Fourth Street. Por último, una nueva gasolinera ARCO AM/PM, mini-mercado y lavacoches se propuso en 2140 Laurel Road.

¡Conoce La Clase Inaugural de La Academia de Liderazgo!

La Ciudad de Oakley en colaboración con el Programa *You, Me, We=Oakley!* (YMWO) reconoció a la primera clase de graduados de La Academia de Liderazgo con una cena y un reconocimiento formal durante la junta del Consejo de la Ciudad del 14 de Noviembre.

La Academia de Liderazgo es un programa de educación gratuito e interactivo, con el fin de que los residentes puedan aprender más sobre las operaciones y procesos de la Ciudad. El propósito del programa es de proveer un mejor entendimiento de las funciones de una ciudad, mientras desarrollamos el liderazgo cívico. Queremos ayudar a que los residentes tengan el conocimiento que les permitirá participar plenamente en el proceso que determina las decisiones de la Ciudad.

Los residentes se comprometen asistir seis clases de dos horas y media por la tarde para aprender de su gobierno local y conocer el personal de gestión.

Este programa se ha ofrecido en ingles por cuarta ocasión. “Decidimos incluir la idea de ofrecer este programa en español en una propuesta a la fundación de San Francisco, entre otras actividades como

los talleres de ciudadanía y mas. Meses después nos enteramos que nuestra propuesta había sido exitosa,” dijo Nancy Marquez-Suarez, Asistente al Administrador de la ciudad. La subvención recibida de la fundación de San Francisco nos permito ofrecer la academia, proveyendo los fondos necesarios.

La Alcaldesa Sue Higgins, quien dio la bienvenida a la clase en su primera reunión, dijo: "Estoy muy contenta de haber ampliado el programa y estoy ansiosa por ver los frutos. Una clase a la vez, estamos construyendo una comunidad más fuerte, a través de residentes bien informados y comprometidos."

Los participantes aprendieron como se aprueba el presupuesto de la ciudad, de donde obtiene la ciudad fondos para proyectos, que hacer para estar en cumplimiento con el Código Municipal, cuales mejoramientos a su hogar requieren permiso, como solicitar una licencia de negocio de la ciudad, y mucho más.

Llame a Gaby al 625-7011 para participar en la siguiente clase ofrecida en el otoño de 2018.

¿Pago impuestos pero a dónde van?

Todos los propietarios en Oakley pagan un impuesto de propiedad de 1% que ayuda a financiar las operaciones de la ciudad. Este impuesto de uso general es para el fondo general y es aparte de impuestos especiales cuales son dedicados a usos específicos.

¿Sabias que este impuesto es compartido entre todos los diversos organismos gubernamentales que prestan servicios a la propiedad? En el año fiscal 2016-2017 la ciudad recibió aproximadamente el 7% de la tasa o \$6.2 millones.

La lista de abajo explica como se divide este impuesto:

- 68% Las escuelas
- 11% Condado de Contra Costa
- 7% Ciudad de Oakley
- 5% Distrito que provee servicios de protección de incendios (ECCFPD)
- 2% Biblioteca del Condado
- 6% Otros distritos especiales

El Estado ha definido el método de asignación y cada año el “Auditor-Controller” de le Condado hace las asignaciones según la ley estatal.

Departamento de Policía Usará Cámaras Adheridas al Cuerpo

Toma nota- en el año 2018 el Departamento de Policía de Oakley comenzará a usará cámaras adheridas al cuerpo que graban en audio y vídeo la actuación de los agentes y de las personas con quienes interactúan.

El Jefe de Policía dijo, “Creemos que el uso de cámaras exonera las acciones de nuestro personal en casi todos los casos. En aquellos casos en los que nuestro personal está actuando incorrectamente, el video va a ayudar en la formación y el cambio de estos comportamientos no deseados.”
