

A Small Step Goes a Long Way – Enroll Today!

This booklet contains important information you will need to enroll in your employer's 401 defined contribution plan, through which you can save and invest for your future with tax advantages.

Contributions from your paycheck go automatically to your retirement account.

As part of your enrollment, you will need to make three important decisions:

1. How much to contribute
2. How to invest
3. Who to designate as your beneficiary(ies)

As the financial provider that administers your plan, ICMA-RC can help you every step of the way.

Sincerely,
ICMA-RC

About ICMA-RC

Founded in 1972, ICMA-RC is a non-profit independent financial services corporation focused on providing retirement plans and related services for over a million public sector participant accounts and approximately 9,300 retirement plans. ICMA-RC's mission is to help build retirement security for local and state government employees. The organization's mission is delivered through our RealizeRetirement® approach in which ICMA-RC representatives actively engage participants in their retirement programs, help them build their assets base toward a stated objective, and help them realize their retirement goals through a comprehensive retirement planning strategy.

All of ICMA-RC's retirement programs, administrative services and educational tools have been developed specifically for public sector retirement plan administrators and participants. For more information, visit www.icmarc.org.

WHAT YOU NEED TO DO:

Plan Highlights

Review this summary information to understand how your 401a Money Purchase Plan works.

ENROLLMENT

Simply complete the enclosed enrollment form and submit it to your employer. Participating in a retirement plan, such as your 401 plan, can have a significant positive impact on your future. Your plan offers the ability to enroll electronically. To enroll online, please read the enclosed direct self-enrollment instructions.

Please note that the decision to participate (or not participate) in the plan is irrevocable once made.

CONTRIBUTIONS

Contribution methods for 401(a) plans can vary widely. In addition to any employer contributions that will be made to the plan, you may also be required to contribute, or you may have a one-time opportunity to make an election to contribute a percentage of your pay to the plan. Your employer or ICMA-RC plan representative can clarify the contribution options for your plan.

With the exception of voluntary after-tax contributions, which may be permitted in some plans, all elections you make with respect to contribution amounts must be made when you first become eligible to participate in the plan. This means that your initial contribution election is irrevocable and cannot be changed at a later date (i.e., you cannot increase or decrease your contribution amount after you enroll in the plan).

VESTING

Vesting refers to your percentage ownership in employer contributions to the plan. Check with your employer to confirm the vesting schedule that applies to your plan. Note that you are always 100% vested for any contributions you make to the plan.

INVESTMENTS

Your contributions will be invested in the funds that you select, and the value of your account will fluctuate based on the performance of the funds. Carefully review the enclosed information relating to your investment options before making your selections. You can make changes to your investments at any time.

WITHDRAWALS

After you separate from service with your employer, you will be eligible to withdraw your money at any time. However, you will not be required to take any withdrawals until after age 70½ .

While you are still employed, your withdrawal options are limited to the following circumstances:

- After you attain age 70½ .
- Rollover assets. Assets that you roll-in to the plan from another eligible retirement plan, such as a plan with a previous employer.
- Voluntary after-tax contributions.

LOANS

Your plan allows you to borrow money from your account while you are still employed. The maximum loan amount is limited to half of your account balance or \$50,000, *whichever is less*. Additional information is available by contacting ICMA-RC.

ACCOUNT INFORMATION

You can review your account information online by logging into your account at www.icmarc.org. Or, use ICMA-RC's self-service phone line at 800-669-7400.

You will receive quarterly account statements showing detailed information on your account, including your current balance and investment performance. Sign up for ICMA-RC's eDelivery services to receive email notifications when your quarterly statements and transaction confirmations are available online.

SUMMARY DESCRIPTION The actual rules governing your plan are contained in state retirement laws and the federal tax code. This publication provides a summary of the rules, and is not a complete description of the law. If there are any conflicts between what is written in this publication and what is contained in the law, the applicable law will govern.

This plan introduction is designed to provide you with general plan information. If there is a conflict between the information in this summary and the Plan document, the Plan document will be the controlling document.

ENROLLING IN YOUR 401 DEFINED CONTRIBUTION PLAN

Review this information to help guide your contribution and investment decisions.

DON'T DELAY – START SAVING NOW

Don't put off enrolling. Your 401 plan provides flexibility and control.

- Investment options can be changed at any time.
- Beneficiary designations can be changed at any time.

BENEFITS OF SAVING

Although you cannot predict how the financial markets will perform or future inflation, tax rates, or other economic conditions, you can benefit from saving for retirement.

And starting earlier can give you a huge advantage. View the preceding chart — by starting to save at, say, age 25 instead of age 40, you can save a lot less each pay period and save about the same amount over your lifetime but come out way ahead. Of course, regardless of your current age, it's never too late to start.

HOW MUCH TO CONTRIBUTE

The benefits you will receive from a pension or Social Security could go a long way to providing a comfortable retirement, but additional savings will likely be needed to help you live comfortably over a potentially long retirement.

- Visit www.icmarc.org/learn for a variety of resources designed to help you save.
- For a more in-depth and personalized recommendation, consider ICMA-RC's Guided Pathways® (www.icmarc.org/guidedpathways).
- Or, request a consultation with your ICMA-RC representative.

Contribute What You Can. Even small savings can really add up over time. In fact, starting out small, and then increasing how much you save by just a little each year could go a long way.

HOW TO INVEST

As you choose your investments, consider the following:

Determine your risk level — how much investment risk you need to consider taking, and are comfortable taking. Use this to help you decide the approximate percentage of your money that should be in stock funds vs. bond funds vs. lower-risk options such as stable value funds, money market funds, and CDs.

Consider a level of risk that is most likely to allow you to meet your long-term goals but also that you can maintain, especially during rough stretches.

Be diversified. Own different types of investments. This does not ensure against losses, but can help you manage risk.

To help guide your risk and diversification decisions, see the following pages:

- Take a look at the historical risk and return of different mixes of stocks and bonds. Higher-risk options like stocks have provided higher returns but also much steeper losses during certain time periods. But even low-risk options still have risk; they will be more likely to lose money to inflation over time.
- Review the different investment options and services available to you.

Asset Allocation

Use the chart below to help guide your asset allocation decisions. It shows the performance of different stock and bond portfolios since 1926, including ranges of annual returns over one, five, and 10 year periods. (For example, 10 year periods run from 1926 to 1935, 1927 to 1936, and so on.) Notice the tradeoff between potential risk and reward.

Average Annual Returns and Range of Returns (1926–2016)

Source: Morningstar Direct
 Performance figures were calculated using historical returns of the Standard & Poor's 500 Index and U.S. Long-Term Government Bonds.
 The past performance shown is no guarantee of future results.

AVAILABLE INVESTMENT OPTIONS

Consider the following options to help you build a diversified portfolio with an appropriate overall level of risk.

Simplify and diversify with one fund. Target funds invest in a variety of individual stock and bond funds and may be appropriate if you are looking to simplify your investment decisions while still being diversified. Consider a:

- Target-date fund with the year in the fund name that closely matches the year you expect to begin withdrawals. Target-date funds are designed to gradually reduce risk over time.¹
- Target-risk fund that has a defined range of risk that is not designed to be reduced over time.

Build your own investment portfolio. If you are comfortable picking and choosing from different funds, this option provides the most flexibility and control.

And ICMA-RC has tools to help — Asset Class Guidance and Fund Advice, part of our Guided Pathways® service provide recommendations for you to follow.

Be Smart about Investing. Learn more about personal finances, including retirement planning, without being overwhelmed. Discover tools to help you plan, save, and invest for your future at www.icmarc.org/realize.

TAX ADVANTAGES

Pre-tax contributions reduce your taxable income in the year you make them.

Let's say you are in the 25% federal income tax bracket, have a \$40,000 annual salary and determine you need to save 5% per paycheck, or \$77, for your future retirement.

When \$77 is saved pre-tax, it is not subject to tax until later when you withdraw, so it reduces your paycheck by only \$58. **Pre-tax contributions help you save.**

Investment earnings are tax-deferred so your account can grow for decades before being subject to tax.

WHO TO DESIGNATE AS YOUR BENEFICIARY

It is important to designate the individuals who will receive your retirement account assets after you die.

Designating beneficiaries overrides your will. If you choose beneficiaries:

- Your assets will be paid out according to your wishes and will not be subject to the potential costs and delays of probate, as well as creditor claims.
- Your beneficiaries may receive more tax advantages.

Next Steps

Enroll today! Take the first step to a secure retirement and enroll in the plan.

Manage your account — conveniently

- Online — sign up for Account Access at www.icmarc.org
- By phone — 24-hour access through ICMA-RC's self-service phone line at **800-669-7400**

¹ A target-date fund is not a complete solution for all of your retirement savings needs. An investment in the fund includes the risk of loss, including near, at or after the target date of the fund. There is no guarantee that the fund will provide adequate income at and through an investor's retirement. Selecting the fund does not guarantee that you will have adequate savings for retirement.

Go paperless. Receive notifications that your transaction confirmations and quarterly statements are available online. Visit www.icmarc.org/paperless to learn more.

Read these instructions to enroll in your retirement plan and create your Account Access profile.

Once you complete the enrollment process, we will be ready to accept contributions on your behalf from your employer.

Express Online Enrollment

A fast, easy way to enroll in your plan! Download the ICMA-RC mobile app at <http://www.icmarc.org/mobile-app.html> or download from the [App Store](#)SM or [Google Play](#)TM. After completing the steps below, you will be invested in your plan's default fund. You may then log in to Account Access to select investment options, designate beneficiaries, and make any necessary updates.

1. Log on to the mobile app and click "Account Login/Enroll" and then the "Enroll Now" button. You may also log on to www.icmarc.org and click "Enroll in Your Plan" in the Log In box or use the "Enroll Now" button on your plan's welcome page.
2. Enter your Social Security number twice and enter your plan number. The employer plan number can be found in this enrollment kit, or can be obtained by contacting your employer, your ICMA-RC representative, or ICMA-RC at 800-669-7400. Click the box for "I'm not a robot" and click "Next."
3. Review the welcome information, select "Express Enrollment," and click Next to proceed with the enrollment process. Enter your personal information and then confirm that the information you've entered is accurate.
4. **In order to begin contributing to your account, you will need to elect your contribution amount. Enter your contribution amount for each pay period and click Next. If your plan does not allow online contribution elections, please contact your employer. You may be instructed to use the print enrollment form feature at the end of your online enrollment process to print the form, or you may be instructed to complete the Contribution Form, and return it to your employer to designate your contributions.**
5. Verify that all of your information is correct and click Submit.
6. Check your email for a message confirming that you have been enrolled in the plan. **Note:** If you enroll by 4:00 p.m. Eastern Time on a business day, your account will be established by the next business day. After your account is registered, you will receive a welcome letter in the mail with additional information about how to manage your account. Go to www.icmarc.org and in the Log In box, click on Set Up Your Online Access to create a profile in Account Access and follow the prompts to create your account.

Read these instructions to enroll in your retirement plan and create your Account Access profile.

Once you complete the enrollment process, we will be ready to accept contributions on your behalf from your employer.

Comprehensive Online Enrollment

A convenient, comprehensive way to enroll in your plan! While enrolling online, you may designate beneficiaries and select your investment options. To complete the enrollment process and create login credentials for Account Access, our online tool for managing your account, follow these steps:

1. Log on to www.icmarc.org and select the "Enroll in Your Plan" link located in the "Login" box or use the "Enroll Now" button on your plan's welcome page.
2. Enter your Social Security number twice and enter your plan number. The employer plan number can be found in this enrollment kit, or can be obtained by contacting your employer, your ICMA-RC representative, or ICMA-RC at 800-669-7400. Click the box for "I'm not a robot" and hit "Next" to proceed through the enrollment process.
3. Review the welcome information, select "Comprehensive Enrollment," and click Next to proceed with the enrollment process. Enter your personal information and then confirm that the information you've entered is accurate.
4. **In order to begin contributing to your account, you will need to elect your contribution amount. Enter your contribution amount for each pay period and click Next. If your plan does not allow online contribution elections, please contact your employer. You may be instructed to use the print enrollment form feature at the end of your online enrollment process to print the form, or you may be instructed to complete the Contribution Form, and return it to your employer to designate your contributions.**
5. Verify that all of your information is correct and click Submit.
6. Check your email for a message confirming that you have been enrolled in the plan. **Note:** If you enroll by 4:00 p.m. Eastern Time on a business day, your account will be established by the next business day. Once your account is established, you will be able to log on to Account Access at www.icmarc.org to view your account balance, submit transactions such as fund transfers and investment allocations and update your personal information.

Completing the Enrollment Form

The most important step to begin achieving your retirement goals is to enroll. Please review the investment options information and remove the form pages from this enrollment book before completing the Enrollment Form.

Section 1: Complete all required personal information.

Section 2: Specify the total percentage or dollar amount you wish to contribute each pay period.

Section 3: Designate your beneficiaries.

Section 4: Choose one of the investment selections:

SIMPLIFY AND DIVERSIFY WITH ONE FUND

VT Milestone Funds

- If you select this option, you should select the Milestone Fund, for the year that most closely matches when you expect to begin making gradual withdrawals, typically when or after you retire.
- Each VT Milestone Fund is composed of portfolios of the VT III Vantagepoint Funds.
- Underlying fund selection and asset mix the VT III Milestone Funds are intended to reflect time until you begin making gradual withdrawals, typically when or after you retire.
- Asset mix of each "dated" Milestone Fund becomes increasingly conservative over time.
- Review and select the fund from the Balanced/Asset Allocation Funds list in the Investment Options section.

Model Portfolio Funds

- If you select this option, you should select the Model Portfolio Fund that most closely matches your level of risk tolerance.
- Each Model Portfolio Fund is composed of a single underlying fund of the VT III Vantagepoint Funds.
- Underlying fund selection and asset mix of the VT III Model Portfolio Funds are intended to reflect risk tolerance.
- Asset allocation mix of each Model Portfolio Fund is maintained over time.
- Review and select the fund from the Balanced/Asset Allocation Funds list in the Investment Options section.

BUILD YOUR OWN INVESTMENT PORTFOLIO — allows maximum flexibility.

- Review the funds listed in the Investment Options section.
- Select the funds and the desired allocation.

Section 5: Sign your completed form and submit to your employer for approval.

For additional details and disclosure on the above steps, please refer to the enrollment form instructions on the back of the form.

Some of the funds listed above may not be available to your Plan. To ensure that you have the most current list of available funds and/or to obtain additional fund information, please log on to Account Access at www.icmarc.org or call ICMA-RC Investor Services at 800-669-7400.

- ¹ Before investing in the Fund you should carefully consider your investment goals, tolerance for risk, investment time horizon, and personal circumstances. There is no guarantee that the Fund will meet its investment objective and you can lose money.
- ² The Fund is an investment option of VantageTrust, a group trust established and maintained by VantageTrust Company, LLC, a wholly owned subsidiary of ICMA-RC. VantageTrust provides for the commingling of assets of certain trusts and plans as described in its Declaration of Trust, and is only available for investment by such eligible trusts and plans. The Fund is not a mutual fund. Its units are not deposits of VantageTrust Company and are not insured by the Federal Deposit Insurance Corporation or any other agency. The Fund is a security that has not been registered under the Securities Act of 1933 and is exempt from investment company registration under the Investment Company Act of 1940. For additional information regarding the Fund, including a description of the principal risks, please consult the VantageTrust Funds Disclosure Memorandum, which is available when plan administration clients log in at www.icmarc.org, at www.vantagepointfunds.org for institutions, or upon request by calling 800-669-7400.
- ³ The Fund is offered to Defined Contribution Investment Only (DCIO) clients through ICMA-RC Services, LLC (RC Services), an SEC registered broker-dealer and FINRA member firm. RC Services is a wholly-owned subsidiary of ICMA-RC and an affiliate of VantageTrust Company, LLC.
- ⁴ The Fund is invested in a single registered mutual fund, the Fidelity Money Market Government Portfolio. Investments in the fund are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. It is possible to lose money by investing in the fund.
- ⁵ A fixed income fund is subject to credit risk and interest rate risk. Credit risk is when an issuer of a fixed income security may be unable or unwilling to make payments of principal or interest to the holders of these securities or may declare bankruptcy. Fixed income securities fluctuate in value as interest rates change. When interest rates rise, the market prices of fixed income securities will usually decrease; when interest rates fall, the market prices of fixed income securities usually will increase.
- ⁶ Funds that invest primarily in high yield bonds (bonds that are rated below investment grade and also known as "junk bonds") are subject to additional risk as these high yield bonds are considered speculative and involve a greater risk of default than "investment grade" securities. The values of these securities are particularly sensitive to changes in interest rates, issuer creditworthiness, and economic and political conditions. The market prices of these securities may decline significantly in periods of general economic difficulty, may be harder to value, and may be less liquid than higher rated securities.
- ⁷ Prudential Retirement Insurance and Annuity Company (Prudential), CA COA #08003, Hartford, CT. Neither Prudential nor ICMA-RC guarantees the investment performance or return on contributions to Prudential's Separate Account.

CITY OF OAKLEY Investment Options (continued)

You should carefully consider the objectives, risks, charges, expenses and underlying guarantee features before purchasing this product. Prudential may increase the Guarantee Fee in the future, from 1.00% up to a maximum of 1.50%. Like all variable investments, this Fund may lose value. Availability and terms may vary by jurisdiction; subject to regulatory approvals. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Guarantees are based on Prudential's claims-paying ability. This annuity is issued under Contract form # GA-2020-TGWB4-0805-RC. ICMA-RC provides recordkeeping services to your Plan and is the investment manager of the underlying Prudential separate account. Prudential or its affiliates may compensate ICMA-RC for providing these and related administrative services in connection with the Fund. Variable annuities are suitable for long-term investing, particularly retirement savings. ©2018 Prudential, the Prudential logo, and the Rock symbol and Bring Your Challenges are service marks of the Prudential Insurance Company of America, Newark, NJ, and its related entities, registered in many jurisdictions worldwide. Note: Participants who are interested in the VT Retirement IncomeAdvantage Fund must first receive and read the VT Retirement IncomeAdvantage Fund Important Considerations document, before investing.

- ⁸ *The Fund is not a complete solution for all of your retirement savings needs. An investment in the Fund includes the risk of loss, including near, at or after the target date of the Fund. There is no guarantee that the Fund will provide adequate income at and through an investor's retirement.*
- ⁹ *Funds that invest in foreign securities are exposed to the risk of loss due to political, economic, legal, regulatory, and operational uncertainties; differing accounting and financial reporting standards; limited availability of information; currency fluctuations; and higher transaction costs. Investments in foreign currencies or securities denominated in foreign currencies (including derivative instruments that provide exposure to foreign currencies) may experience gains or losses solely based on changes in the exchange rate between foreign currencies and the U.S. dollar. The risk of investing in foreign securities may be greater with respect to securities of companies located in emerging market countries. The value of developing or emerging market currencies may fluctuate more than the currencies of companies with more mature markets.*
- ¹⁰ *PURITAN and CONTRAFUND are registered service marks of FMR LLC. Used with permission.*
- ¹¹ *Certain funds may be subject to style risk, which is the possibility that the investment style of its investment adviser will trail the returns of the overall market. In the past, different types of securities have experienced cycles of outperformance and underperformance in comparison to the market in general. For example, growth stocks have performed best during the later stages of economic expansion and value stocks have performed best during periods of economic recovery. Both styles may go in and out of favor. When the investing style used by a fund is out of favor, that fund is likely to underperform other funds that use investing styles that are in favor.*
- ¹² *T. Rowe Price® is a registered trademark of T. Rowe Price Group, Inc. - all rights reserved.*
- ¹³ *Funds that invest primarily in mid-capitalization companies involve greater risk than is customarily associated with investments in larger, more established companies. Equity securities of mid-capitalization companies generally trade in lower volume and are generally subject to greater and less predictable price changes than the securities of larger companies.*
- ¹⁴ *Funds that invest primarily in small-capitalization companies involve greater risk than is customarily associated with investments in larger, more established companies. Equity securities of small-capitalization companies are generally subject to greater price volatility than those of larger companies due to less certain growth prospects, the lower degree of liquidity in the markets for their securities, and the greater sensitivity of smaller companies to changing economic conditions. Also, small-capitalization companies may have more limited product lines, fewer capital resources and less experienced management than larger companies.*
- ¹⁵ *Sector funds tend to be riskier and more volatile than the broad market because they are generally less diversified and more volatile than other mutual funds.*

Fund Name	Investment Objective/Principal Investment Strategy/Principal Risks
Stable Value/Cash Management	
Vantagepoint PLUS Fund Morningstar Category† ‡: Stable Value	<p>Objective: The PLUS Fund's investment objective is to seek to offer a competitive level of income consistent with providing capital preservation and meeting liquidity needs. Key goals are to seek to preserve capital, by limiting the risk of loss of principal and delivering stable returns, and to meet the liquidity needs of those who invest in the PLUS Fund.</p> <p>Strategy: Vantagepoint Investment Advisers, LLC employs a structured, multi-product, multi-manager approach in managing the Fund. The Fund invests primarily in a diversified and tiered portfolio of stable value investment contracts and in fixed income securities, fixed income mutual funds, and fixed income commingled trust funds ("fixed income assets") that back certain stable value investment contracts. In addition, the Fund invests in money market mutual funds, as well as cash and cash equivalents. The Fund's portfolio may include different types of investments with a variety of negotiated terms and maturities and is diversified across sectors and issuers. The composition of the Fund's portfolio and its allocations to various stable value investments and fixed income investment sectors, across the fund's multiple tiers, is determined based on prevailing economic and capital market conditions, relative value analysis, liquidity needs, and other factors. The Fund invests in stable value investment contracts to seek to achieve, over the long run, returns higher than those of money market funds and short-term bank rates and relatively stable returns compared to short-to-intermediate term fixed income funds. The Fund generally will not track shorter-term interest rates as closely as money market mutual funds, because of its longer maturity, potential adverse market changes, and provisions in stable value contracts held by the Fund. In addition, while the Fund's returns are generally expected to follow interest rate trends over time, they typically will do so on a lagged basis.</p> <p>Principal Risks: Stable Value Risk, Interest Rate Risk, Credit Risk, Issuer Risk, Liquidity Risk, Reinvestment Risk, Call Risk, Mortgage-Backed Securities Risk, Asset-Backed Securities Risk, Securities Lending Risk, Derivative Instruments Risk, Large Investor Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
VT Cash Management Fund	<p>Objective: As high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.</p> <p>Strategy: The Fund invests substantially all of its assets in the Fidelity® Money Market Government Portfolio. The underlying fund normally invests at least 99.5% of its total assets in cash, U.S. Government securities and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash or government securities). The underlying fund invests in U.S. Government securities issued by entities that are chartered or sponsored by Congress but whose securities are neither issued nor guaranteed by the U.S. Treasury.</p> <p>Principal Risks: Interest Rate Risk, U.S. Government Agency Securities Risk, U.S. Treasury Securities Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
Bond	
Vantagepoint Core Bond Index Fund Morningstar Category† ‡: Intermediate-Term Bond	<p>Objective: Current income by approximating the performance of the Bloomberg Barclays U.S. Aggregate Bond Index.</p> <p>Strategy: The Fund invests in a single underlying VT III Vantagepoint Fund with a corresponding name, objective and strategy. The underlying fund invests, under normal circumstances, at least 80% of its net assets in bonds and other fixed income securities included in the Bloomberg Barclays U.S. Aggregate Bond Index, selected and weighted to seek to result in investment characteristics comparable to those of that index and performance that correlates with the performance of that index. It considers To-Be-Announced ("TBA") transactions that provide substantially similar exposure to securities in the Bloomberg Barclays U.S. Aggregate Bond Index to be investments included within the index. The underlying fund follows an indexed or passively managed approach to investing. A sampling technique is employed to approximate index characteristics, using fewer securities than are contained in the index.</p> <p>Principal Risks: Interest Rate Risk, U.S. Government Agency Securities Risk, Mortgage-Backed Securities Risk, TBA Risk, Asset-Backed Securities Risk, Prepayment and Extension Risk, Credit Risk, Indexing Risk, Portfolio Turnover Risk, Large Investor Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>

<p>VT Western Asset Core Plus Bond Fund</p> <p>Morningstar Category† ‡: Intermediate-Term Bond</p>	<p>Objective: Maximize total return, consistent with prudent investment management and liquidity needs by investing to obtain the average duration specified below.</p> <p>Strategy: The Fund invests substantially all of its assets in the Western Asset Core Plus Bond Fund. The underlying fund invests in fixed income securities of various maturities and, under normal market conditions, will invest at least 80% of its net assets in debt and fixed income securities. Although the underlying fund may invest in securities of any maturity, it will normally maintain a dollar-weighted average effective duration within 30% of the average duration of the domestic bond market as a whole as estimated by its subadvisers (generally this range is from 2.5 to 7 years). The underlying fund may invest up to 20% of its total assets in non-U.S. dollar denominated securities and up to 20% of the fund's net assets may be invested in debt securities that are not rated in the Baa or BBB categories or above at the time of purchase by one or more Nationally Recognized Statistical Rating Organizations ("NRSROs") or, if unrated, securities of comparable quality at the time of purchase (as determined by the underlying fund's subadvisers). Such debt securities are commonly known as "junk bonds" or "high yield securities." The underlying fund may invest up to 25% of its total assets in the securities of non-U.S. issuers and may invest a substantial portion of its assets in mortgage-backed and asset-backed securities. It may also enter into various exchange-traded and over-the-counter derivative transactions including, but not limited to, futures, options, swaps, foreign currency futures, and forwards.</p> <p>Principal Risks: Interest Rate Risk, Credit Risk, High Yield Securities Risk, Derivative Instruments Risk, Leverage Risk, Liquidity Risk, Foreign Securities Risk, Emerging Markets Securities Risk, Foreign Currency Risk, Foreign Government Securities Risk, Call Risk, Issuer Risk, Inflation-Adjusted Securities Risk, Mortgage-Backed Securities Risk, Asset-Backed Securities Risk, Management Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
<p>Vantagepoint Inflation Focused Fund</p> <p>Morningstar Category† ‡: Inflation-Protected Bond</p>	<p>Objective: Inflation protection and income.</p> <p>Strategy: The Fund invests in a single underlying VT III Vantagepoint Fund with a corresponding name, objective and strategy. The underlying fund invests, under normal circumstances, in a combination of (1) inflation-indexed fixed income securities or instruments, (2) other fixed income securities or instruments, and (3) inflation-linked derivatives. To the extent that the underlying fund's subadvisers invest in fixed income securities that are not inflation-indexed, they may use inflation-linked derivatives in connection with such investments to seek to achieve the investment objective. The underlying fund generally invests in investment grade fixed income securities.</p> <p>Principal Risks: Inflation-Adjusted Securities Risk, Interest Rate Risk, Credit Risk, Foreign Securities Risk, Foreign Currency Risk, U.S. Government Agency Securities Risk, Derivative Instruments Risk, Call Risk, Mortgage-Backed Securities Risk, Asset-Backed Securities Risk, Municipal Securities Risk, Multi-Manager Risk, Large Investor Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
<p>VT PIMCO High Yield Fund</p> <p>Morningstar Category† ‡: High Yield Bond</p>	<p>Objective: Maximum total return consistent with preservation of capital and prudent investment management.</p> <p>Strategy: The Fund invests substantially all of its assets in the PIMCO High Yield Fund. The underlying fund invests, under normal circumstances, at least 80% of its assets in a diversified portfolio of high yield securities ("junk bonds"), which may be represented by forward contracts or derivatives such as options, futures, or swap agreements, rated below investment grade by Moody's, or equivalently rated by S&P or Fitch. The remainder of its assets may be invested in investment grade fixed income securities that include bonds or other debt securities issued by various U.S. and non-U.S. public- and private-sector entities. It may also invest in securities denominated in foreign currencies and in securities and instruments tied to emerging market countries and in preferred stock. The underlying fund may invest in derivative instruments without limitation.</p> <p>Principal Risks: Interest Rate Risk, Credit Risk, High Yield Securities Risk, Issuer Risk, Liquidity Risk, Derivative Instruments Risk, Stock Market Risk, Mortgage-Backed Securities Risk, Asset-Backed Securities Risk, Foreign Securities Risk, Emerging Markets Securities Risk, Foreign Currency Risk, Leverage Risk, Management Risk, Short Sale Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>

Guaranteed Lifetime Income	
<p>VT Retirement Income Advantage Fund</p>	<p>Objective: To seek both moderate capital growth and current income while providing a guaranteed lifetime income feature that protects retirement income against market downturns.</p> <p>Strategy: The Fund invests in a Separate Account under a group variable annuity issued by Prudential Retirement Insurance and Annuity Company ("Prudential"), Hartford Connecticut. The Separate Account invests in a mix of registered funds and a collective trust with an allocation of approximately 60% equities (both domestic and foreign) and 40% fixed income. ICMA-RC is responsible for managing the assets of the Separate Account. The Separate Account's target allocation for the underlying funds is as follows: • Equity Funds—VT II Vantagepoint Broad Market Index Fund has a target allocation of 25%, VT II Vantagepoint Growth & Income Fund has a target allocation of 20%, and VT II Vantagepoint International Fund has a target allocation of 15%. • Fixed Income Funds—Prudential Core Conservative Intermediate Bond Fund has a target allocation of 30% and VT II Vantagepoint Inflation Focused Fund has a target allocation of 10%. b Guarantee Fee /b In exchange for an annual guarantee fee of from 1.00% to a maximum of 1.50%, Prudential provides downside income protection and lifetime income guarantees. These guarantees are based on the claims-paying ability of Prudential and are subject to certain limitations, terms and conditions. Excess withdrawals will proportionately reduce and potentially terminate future payment guarantees. For additional information regarding these guarantees and the underlying assumptions attributable to these guarantees and the terms and conditions, please see the VT Retirement Income Advantage Fund Important Considerations document, which is available online or by contacting Investor Services at 800-669-7400.</p> <p>Principal Risks: The guarantees are based on the claims-paying ability of Prudential and are subject to certain limitations, terms, and conditions. Like all variable investments, the fund can lose value. The risks associated with the underlying funds of the Separate Account include, among others, stock market risk, mid-cap securities risk, foreign securities risk, interest rate risk, credit risk, U.S. Government agency securities risk, mortgage-backed securities risk, asset-backed securities risk, convertible securities risk, high yield securities risk, and derivative instruments risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
Balanced/Asset Allocation	
<p>Vantagepoint Milestone Retirement Income Fund</p> <p>Morningstar Category† ‡: Target-Date Retirement</p>	<p>Objective: Current income and opportunities for capital growth that have limited risk.</p> <p>Strategy: The Fund invests in a single underlying VT III Vantagepoint Fund with a corresponding name, objective and strategy. The underlying fund invests in a combination of other VT III Vantagepoint Funds to seek to obtain exposure to approximately 67% fixed income/stable value investments and 33% equity investments. These asset allocations are referred to as "neutral targets" because they do not reflect decisions that may be made by ICMA-RC, the investment adviser to the underlying fund, to overweight or underweight a particular asset class based on market or operational factors. The neutral targets also do not reflect performance differences between the Fund's asset class allocations that will cause temporary deviations from the neutral targets. The actual asset class allocation of the Fund may vary by as much as five percentage points as a result of ICMA-RC's allocation decisions, performance differences between asset classes of the Fund, or some combination thereof.</p> <p>Principal Risks: Asset Allocation Risk, Fund of Funds Risk, Interest Rate Risk, Credit Risk, Convertible Securities Risk, High Yield Securities Risk, Mortgage-Backed Securities Risk, Asset-Backed Securities Risk, Prepayment and Extension Risk, U.S. Government Agency Securities Risk, Stock Market Risk, Foreign Securities Risk, Emerging Markets Securities Risk, Mid-Cap Securities Risk, Derivative Instruments Risk, Indexing Risk, Large Investor Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>

The underlying fund invests primarily in dividend-paying equity securities. The principal type of equity security in which it invests is common stock. The underlying fund invests in securities that its portfolio managers believe are undervalued based on various valuation measures. It may invest up to 25% of its net assets in securities of foreign issuers.</p> <p>Principal Risks: Stock Market Risk, Foreign Securities Risk, Management Risk, Style Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
<p>VT MFS® Value Fund</p> <p>Morningstar Category† ‡: Large Value</p>	<p>Objective: Capital appreciation</p> <p>Strategy: The Fund invests its assets in the MFS® Value Fund. The underlying fund normally invests its assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. The underlying fund focuses on investing its assets in the stocks of companies its adviser believes are undervalued compared to their perceived worth (value companies). While the underlying fund may invest its assets in companies of any size, it primarily invests in companies with large capitalizations. The underlying fund may invest its assets in foreign securities. The underlying fund normally allocates its investments across different industries and sectors, but it may invest a significant percentage of its assets in issuers in a single or small number of industries or sectors. The underlying fund uses a bottom-up investment approach to buying and selling investments. Investments are selected primarily based on fundamental analysis of individual issuers. Quantitative models that systematically evaluate issuers may also be considered.</p> <p>Principal Risks: Stock Market Risk, Style Risk, Foreign Securities Risk, Liquidity Risk, Management Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>

<p>VT Parnassus Core Equity Fund</p> <p>Morningstar Category† ‡: Large Blend</p>	<p>Objective: Capital appreciation and current income.</p> <p>Strategy: The Fund invests substantially all of its assets in the Parnassus Core Equity Fund. The underlying fund invests primarily in a diversified portfolio of equity securities. Equity securities include common stock and preferred stock. Under normal circumstances, the underlying fund will invest a minimum of 80% of its net assets (plus borrowings for investment purposes) in equity securities, and at least 75% of its total assets will normally be invested in equity securities that pay interest or dividends. The remaining 25% may be invested in non-dividend paying equity securities, short term instruments, and money market instruments (i.e., cash and cash equivalents). It is primarily a large-cap fund, which means that it normally invests more than half of its net assets in large, well-established businesses. Such companies are those that are considered by the investment adviser to the underlying fund to have a market capitalization that is greater than the median market capitalization of the Russell 1000® Index measured at the time of purchase. To a lesser extent, it may invest in small- and mid-capitalization companies. The underlying fund also may purchase foreign securities directly on foreign markets. It invests mainly in domestic stocks of companies that its investment adviser believes are financially sound and have good prospects. It also may, to a lesser extent, invest in foreign securities of similar companies. The adviser of the underlying fund takes environmental, social, and governance ("ESG") factors into account in making investment decisions and will sell a security if the adviser believes a company's fundamentals will deteriorate, if it believes a company's stock has little potential for appreciation, or if the company no longer meets the adviser's ESG criteria.</p> <p>Principal Risks: Stock Market Risk, Large-Cap Securities Risk, Mid-Cap Securities Risk, Small-Cap Securities Risk, Management Risk, Foreign Securities Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
<p>VT Oppenheimer Main Street Fund</p> <p>Morningstar Category† ‡: Large Blend</p>	<p>Objective: Capital appreciation.</p> <p>Strategy: The Fund invests substantially all of its assets in the Oppenheimer Main Street Fund. The underlying fund mainly invests in common stocks of U.S. companies of different capitalization ranges. Its portfolio managers currently focus on "larger capitalization" issuers, which are considered to be companies with market capitalizations equal to the companies in the Russell 1000® Index. Its portfolio consists of both growth and value stocks.</p> <p>Principal Risks: Stock Market Risk, Focused Investment Risk, Small-Cap Securities Risk, Mid-Cap Securities Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>

The underlying fund, under normal circumstances, invests at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in common and preferred stocks of U.S. mid-capitalization companies. Its portfolio managers consider the term "mid-capitalization companies" to refer to companies that, at the time of purchase, are within the range of capitalizations of companies in the Russell Midcap® Growth Index.</p> <p>Principal Risks: Stock Market Risk, Style Risk, Management Risk, Focused Investment Risk, Mid-Cap Securities Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
<p>VT Carillon Eagle Mid Cap Growth Fund</p> <p>Morningstar Category† ‡: Mid-Cap Growth</p>	<p>Objective: Long-term capital appreciation</p> <p>Strategy: The Fund invests its assets in the Carillon Eagle Mid Cap Growth Fund. The underlying fund, during normal market conditions, seeks to achieve its objective by investing at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in the equity securities of mid-capitalization companies. The underlying fund's portfolio managers consider mid-capitalization companies to be those companies that, at the time of initial purchase, have market capitalizations greater than \$1 billion and equal to or less than the largest company in the Russell Midcap® Growth Index during the most recent 12-month period. The underlying fund will invest primarily in the equity securities of companies that the portfolio managers believe have the potential for above-average earnings or sales growth, reasonable valuations and acceptable debt levels. Such stocks can typically have high price-to-earnings ratios. Equity securities include common and preferred stock, warrants or rights exercisable into common or preferred stock and high-quality convertible securities. The portfolio managers generally do not emphasize investment in any particular investment sector or industry. The underlying fund will generally sell when the stock has met the portfolio managers' target price, the investment is no longer valid, a better investment opportunity has arisen or if the investment reaches a value more than 5% of the fund's net assets.</p> <p>Principal Risks: Stock Market Risk, Preferred Stock Risk, Convertible Securities Risk, Mid-Cap Securities Risk, Small-Cap Securities Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>
<p>VT LSV Small Cap Value Fund</p> <p>Morningstar Category† ‡: Small Value</p>	<p>Objective: Long-term growth of capital</p> <p>Strategy: The Fund invests its assets in the LSV Small Cap Value Fund. Under normal circumstances, the underlying fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of small-capitalization companies. For purposes of this policy, a small-capitalization company is a company with a market capitalization of less than \$2.5 billion, or the highest market capitalization in the Russell 2000® Value Index, whichever is greater, at the time of initial purchase. The underlying fund may also invest, to a lesser extent, in equity securities of companies with larger market capitalizations. The equity securities in which the Fund invests are mainly common stocks. In selecting securities for the underlying fund, its adviser focuses on companies whose securities, in the adviser's opinion, are out-of-favor (undervalued) in the marketplace at the time of purchase in light of factors such as the company's earnings, book value, revenues or cash flow, but show signs of recent improvement. Its adviser believes that these out-of-favor securities will produce superior future returns if their future growth exceeds the market's low expectations. Its adviser uses a quantitative investment model to make investment decisions for the underlying fund. The investment model ranks securities based on fundamental measures of value (such as the price-to-earnings ratio) and indicators of near-term appreciation potential (such as recent price appreciation). The investment model selects stocks to buy from the higher-ranked stocks and selects stocks to sell from those whose rankings have decreased, subject to overall risk controls.</p> <p>Principal Risks: Stock Market Risk, Small-Cap Securities Risk, Style Risk.</p> <p>Please see the Disclosure Memorandum for additional information about the Fund's risks.</p>

Additional Information About VT III Vantagepoint Model Portfolio Funds

The VT III Vantagepoint Model Portfolio Funds ("Model Portfolio Funds") are target risk funds. Each of the Model Portfolio Funds is a "fund of funds" that invests substantially all of its assets in other VT III Vantagepoint Funds and one or more third-party ETFs, generally in certain allocations determined by the fund's investment adviser. By investing in this way, each Model Portfolio Fund is exposed to the risks as well as the potential rewards of its underlying funds and of the portfolio holdings and strategies of those funds.

Additional Information About VT III Vantagepoint Milestone Funds

The VT III Vantagepoint Milestone Funds ("Milestone Funds") are target date funds. Each of the Milestone Funds is a "fund of funds" that invests substantially all of its assets in other VT III Vantagepoint Funds and one or more third-party ETFs, generally in certain allocations determined by the fund's investment adviser. By investing in this way, each Milestone Fund is exposed to the risks as well as the potential rewards of its underlying funds and of the portfolio holdings and strategies of those funds.

Over time, the investment adviser will adjust each "dated" Milestone Fund's targeted allocations to its underlying funds, to gradually reduce the fund's exposure to equity investments as the fund's "target date" (the year in its name) approaches and continuing for about 10 years after that date. At that time, the fund will reach its "landing point" and its targeted allocations will become constant.

The goal of changing the asset allocation targets is to seek to reduce each "dated" Milestone Fund's investment risk over time, as its investors move toward and into their retirement and begin making gradual withdrawals from the fund. However, there is no guarantee that this goal will be achieved and investors may lose money by investing in the Milestone Funds.

The sequence of asset allocation changes that the dated Milestone Funds are expected to follow is known as the "glide path" and is illustrated in the chart below.

- Guided Pathways® Advisory Services, ICMA-RC's comprehensive suite of investment advisory services.

Your retirement plan is a valuable asset, and an important part of your total employee benefits package. By sponsoring a retirement plan, your employer is providing an opportunity for you to reach your financial goals.

Annual Service and Disclosure Statement

The annual service and disclosure statement outlines the cost of services in your plan. The amount you pay for your retirement plan is based on the available services, those you choose to use and the funds in which you invest. While retirement plan fees are important, they are only part of the story. The quality and value of the services you receive will assist you in saving for retirement and should also be considered.

The enclosed disclosure statement shows fees and fund costs. It is informational and requires no action on your part. It simply outlines the costs of the value-added services you receive. The disclosure statement includes:

- **Plan-Related Information:** A schedule of fees that may be deducted from your account, providing a clear view of the cost of services you may choose to use.
- **Performance:** Fund, index benchmark and peer average returns to provide comparative information on the performance of funds made available by your plan.
- **Fees and Expenses:** A schedule of the expenses of each fund made available by your plan, the annual cost of a \$1,000 investment in each fund, and fund redemption fees/trading restrictions.
- **Annuity Information:** For plans making the VT Retirement Income Advantage Fund available, additional information regarding the objectives, pricing factors and fees of this fund.

We are dedicated to providing information and education that supports informed decision making and is consistent with the best standards in the retirement plan industry. To find out more about our education and plan administration services, the investment alternatives made available by your plan, as well as fees, please talk to your local ICMA-RC representative or visit us online at www.icmarc.org.

ICMA-RC's services, combined with more than 45 years of experience, bring an extraordinary understanding and dedication to the retirement saving needs of the public sector. Our success is based on delivering the highest level of service, value and quality to our clients and we are committed to assisting you in building your retirement security.

Performance

Fund past performance, as shown, is no guarantee of how the fund will perform in the future. The performance shown has been annualized for periods greater than one year. Investment returns and principal value will fluctuate, so that an investor's shares, when redeemed, may be worth more or less than their original cost. For current performance, contact ICMA-RC by calling 800-669-7400 or by visiting www.icmarc.org.

Fund performance is shown comparing it to a "benchmark" which may be a (i) broad-based securities market index (ii) a group of mutual funds with similar investment objectives, or (iii) a short term government backed debt obligation such as a U.S. Treasury Bill. An index is not available for direct investment, is unmanaged, and does not reflect the costs of portfolio management or trading. A fund's portfolio may differ from the securities held in an index.

The performance displayed for each of the plan's investment options is net of fees and therefore includes the effects of the total annual operating expenses on the rate of return.

- 1 *Before investing in the Fund you should carefully consider your investment goals, tolerance for risk, investment time horizon, and personal circumstances. There is no guarantee that the Fund will meet its investment objective and you can lose money.*
- 2 *The Fund is an investment option of VantageTrust, a group trust established and maintained by VantageTrust Company, LLC, a wholly owned subsidiary of ICMA-RC. VantageTrust provides for the commingling of assets of certain trusts and plans as described in its Declaration of Trust, and is only available for investment by such eligible trusts and plans. The Fund is not a mutual fund. Its units are not deposits of VantageTrust Company and are not insured by the Federal Deposit Insurance Corporation or any other agency. The Fund is a security that has not been registered under the Securities Act of 1933 and is exempt from investment company registration under the Investment Company Act of 1940. For additional information regarding the Fund, including a description of the principal risks, please consult the VantageTrust Funds Disclosure Memorandum, which is available when plan administration clients log in at www.icmarc.org, at www.vantagepointfunds.org for institutions, or upon request by calling 800-669-7400.*
- 3 *The Fund is offered to Defined Contribution Investment Only (DCIO) clients through ICMA-RC Services, LLC (RC Services), an SEC registered broker-dealer and FINRA member firm. RC Services is a wholly-owned subsidiary of ICMA-RC and an affiliate of VantageTrust Company, LLC.*
- 4 *Vantagepoint PLUS Fund return is annualized for all periods.*
- 5 *ICMA-RC and your employer may negotiate a different fund management or service fee for your Plan that would lower the total expense ratio. The performance and total expense ratio shown do not reflect any such alternative fee arrangements.*
- 6 *The Fund is invested in a single registered mutual fund, the Fidelity Money Market Government Portfolio. Investments in the fund are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. It is possible to lose money by investing in the fund.*
- 7 *A fixed income fund is subject to credit risk and interest rate risk. Credit risk is when an issuer of a fixed income security may be unable or unwilling to make payments of principal or interest to the holders of these securities or may declare bankruptcy. Fixed income securities fluctuate in value as interest rates change. When interest rates rise, the market prices of fixed income securities will usually decrease; when interest rates fall, the market prices of fixed income securities usually will increase.*
- 8 *Funds that invest primarily in high yield bonds (bonds that are rated below investment grade and also known as "junk bonds") are subject to additional risk as these high yield bonds are considered speculative and involve a greater risk of default than "investment grade" securities. The values of these securities are particularly sensitive to changes in interest rates, issuer creditworthiness, and economic and political conditions. The market prices of these securities may decline significantly in periods of general economic difficulty, may be harder to value, and may be less liquid than higher rated securities.*
- 9 *Prudential Retirement Insurance and Annuity Company (Prudential), CA COA #08003, Hartford, CT. Neither Prudential nor ICMA-RC guarantees the investment performance or return on contributions to Prudential's Separate Account. You should carefully consider the objectives, risks, charges, expenses and underlying guarantee features before purchasing this product. Prudential may increase the Guarantee Fee in the future, from 1.00% up to a maximum of 1.50%. Like all variable investments, this Fund may lose value. Availability and terms may vary by jurisdiction; subject to regulatory approvals. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Guarantees are based on Prudential's claims-paying ability. This annuity is issued under Contract form # GA-2020-TGWB4-0805-RC. ICMA-RC provides recordkeeping services to your Plan and is the investment manager of the underlying Prudential separate account. Prudential or its affiliates may compensate ICMA-RC for providing these and related administrative services in connection with the Fund. Variable annuities are suitable for long-term investing, particularly retirement savings. ©2018 Prudential, the Prudential logo, and the Rock symbol and Bring Your Challenges are service marks of the Prudential Insurance Company of America, Newark, NJ, and its related entities, registered in many jurisdictions worldwide. Note: Participants who are interested in the VT Retirement IncomeAdvantage Fund must first receive and read the VT Retirement IncomeAdvantage Fund Important Considerations document, before investing.*
- 10 *The Fund is not a complete solution for all of your retirement savings needs. An investment in the Fund includes the risk of loss, including near, at or after the target date of the Fund. There is no guarantee that the Fund will provide adequate income at and through an investor's retirement.*

- 11 Performance information for this class prior to its inception date is the performance of the Fund adjusted to reflect the estimated fees and expenses of this class.
- 12 Funds that invest in foreign securities are exposed to the risk of loss due to political, economic, legal, regulatory, and operational uncertainties; differing accounting and financial reporting standards; limited availability of information; currency fluctuations; and higher transaction costs. Investments in foreign currencies or securities denominated in foreign currencies (including derivative instruments that provide exposure to foreign currencies) may experience gains or losses solely based on changes in the exchange rate between foreign currencies and the U.S. dollar. The risk of investing in foreign securities may be greater with respect to securities of companies located in emerging market countries. The value of developing or emerging market currencies may fluctuate more than the currencies of companies with more mature markets.
- 13 PURITAN and CONTRAFUND are registered service marks of FMR LLC. Used with permission.
- 14 Certain funds may be subject to style risk, which is the possibility that the investment style of its investment adviser will trail the returns of the overall market. In the past, different types of securities have experienced cycles of outperformance and underperformance in comparison to the market in general. For example, growth stocks have performed best during the later stages of economic expansion and value stocks have performed best during periods of economic recovery. Both styles may go in and out of favor. When the investing style used by a fund is out of favor, that fund is likely to underperform other funds that use investing styles that are in favor.

- 16 Funds that invest primarily in mid-capitalization companies involve greater risk than is customarily associated with investments in larger, more established companies. Equity securities of mid-capitalization companies generally trade in lower volume and are generally subject to greater and less predictable price changes than the securities of larger companies.
- 17 Funds that invest primarily in small-capitalization companies involve greater risk than is customarily associated with investments in larger, more established companies. Equity securities of small-capitalization companies are generally subject to greater price volatility than those of larger companies due to less certain growth prospects, the lower degree of liquidity in the markets for their securities, and the greater sensitivity of smaller companies to changing economic conditions. Also, small-capitalization companies may have more limited product lines, fewer capital resources and less experienced management than larger companies.
- 18 Sector funds tend to be riskier and more volatile than the broad market because they are generally less diversified and more volatile than other mutual funds.
- a The Intercontinental Exchange Bank of America Merrill Lynch ("ICE BofAML") US 3-Month Treasury Bill Index is comprised of a single U.S. Treasury Bill issue purchased at the beginning of each month and held for a full month, at which time that issue is sold and rolled into a newly selected issue. The issue selected each month is that having a maturity date closest to, but not beyond, 90 days from the rebalance date.
- b The Ibbotson Associates US 30-Day T-Bill Index measures the performance of a single issue of outstanding Treasury bill which matures closest to, but not beyond, one month from the rebalancing date. The issue is purchased at the beginning of the month and held for a full month; at the end of the month that issue is sold and rolled into a newly selected issue.

Fees and Expenses

The fees and expenses table below discloses total annual operating expenses for the plan's investment options as well as any shareholder-type fees or trading restrictions. The total annual operating expenses of these investment options reduce their rate of return.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

ⁱ Frequent trading rules are designed to detect and discourage trading activities that may increase costs to all investors. All funds or underlying funds are monitored for frequent trading. Certain funds or underlying funds may impose fees or restrictions to deter frequent trading. Current information about these fees or restrictions can be found in a fund's or underlying fund's prospectus. You may contact us to obtain a prospectus or to answer questions by calling 800-669-7400, emailing investorservices@icmarc.org, or visiting www.icmarc.org. You can obtain information about ICMA-RC's Frequent Trading Policy at www.icmarc.org/frequenttrading.

- 1 Before investing in the Fund you should carefully consider your investment goals, tolerance for risk, investment time horizon, and personal circumstances. There is no guarantee that the Fund will meet its investment objective and you can lose money.
- 2 The Fund is an investment option of VantageTrust, a group trust established and maintained by VantageTrust Company, LLC, a wholly owned subsidiary of ICMA-RC. VantageTrust provides for the commingling of assets of certain trusts and plans as described in its Declaration of Trust, and is only available for investment by such eligible trusts and plans. The Fund is not a mutual fund. Its units are not deposits of VantageTrust Company and are not insured by the Federal Deposit Insurance Corporation or any other agency. The Fund is a security that has not been registered under the Securities Act of 1933 and is exempt from investment company registration under the Investment Company Act of 1940. For additional information regarding the Fund, including a description of the principal risks, please consult the VantageTrust Funds Disclosure Memorandum, which is available when plan administration clients log in at www.icmarc.org, at www.vantagepointfunds.org for institutions, or upon request by calling 800-669-7400.
- 3 The Fund is offered to Defined Contribution Investment Only (DCIO) clients through ICMA-RC Services, LLC (RC Services), an SEC registered broker-dealer and FINRA member firm. RC Services is a wholly-owned subsidiary of ICMA-RC and an affiliate of VantageTrust Company, LLC.

- 4 *The Fund is invested in a single registered mutual fund, the Fidelity Money Market Government Portfolio. Investments in the fund are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. It is possible to lose money by investing in the fund.*
- 5 *Differences between the net and gross expense ratios of a fund are typically due to fee waivers, expense reimbursements, and/or expense limits.*
- 6 *A fixed income fund is subject to credit risk and interest rate risk. Credit risk is when an issuer of a fixed income security may be unable or unwilling to make payments of principal or interest to the holders of these securities or may declare bankruptcy. Fixed income securities fluctuate in value as interest rates change. When interest rates rise, the market prices of fixed income securities will usually decrease; when interest rates fall, the market prices of fixed income securities usually will increase.*
- 7 *Funds that invest primarily in high yield bonds (bonds that are rated below investment grade and also known as "junk bonds") are subject to additional risk as these high yield bonds are considered speculative and involve a greater risk of default than "investment grade" securities. The values of these securities are particularly sensitive to changes in interest rates, issuer creditworthiness, and economic and political conditions. The market prices of these securities may decline significantly in periods of general economic difficulty, may be harder to value, and may be less liquid than higher rated securities.*
- 8 *Prudential Retirement Insurance and Annuity Company (Prudential), CA COA #08003, Hartford, CT. Neither Prudential nor ICMA-RC guarantees the investment performance or return on contributions to Prudential's Separate Account. You should carefully consider the objectives, risks, charges, expenses and underlying guarantee features before purchasing this product. Prudential may increase the Guarantee Fee in the future, from 1.00% up to a maximum of 1.50%. Like all variable investments, this Fund may lose value. Availability and terms may vary by jurisdiction; subject to regulatory approvals. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force. Guarantees are based on Prudential's claims-paying ability. This annuity is issued under Contract form # GA-2020-TGWB4-0805-RC. ICMA-RC provides recordkeeping services to your Plan and is the investment manager of the underlying Prudential separate account. Prudential or its affiliates may compensate ICMA-RC for providing these and related administrative services in connection with the Fund. Variable annuities are suitable for long-term investing, particularly retirement savings. ©2018 Prudential, the Prudential logo, and the Rock symbol and Bring Your Challenges are service marks of the Prudential Insurance Company of America, Newark, NJ, and its related entities, registered in many jurisdictions worldwide. Note: Participants who are interested in the VT Retirement IncomeAdvantage Fund must first receive and read the VT Retirement IncomeAdvantage Fund Important Considerations document, before investing.*
- 9 *The Fund is not a complete solution for all of your retirement savings needs. An investment in the Fund includes the risk of loss, including near, at or after the target date of the Fund. There is no guarantee that the Fund will provide adequate income at and through an investor's retirement.*
- 10 *Funds that invest in foreign securities are exposed to the risk of loss due to political, economic, legal, regulatory, and operational uncertainties; differing accounting and financial reporting standards; limited availability of information; currency fluctuations; and higher transaction costs. Investments in foreign currencies or securities denominated in foreign currencies (including derivative instruments that provide exposure to foreign currencies) may experience gains or losses solely based on changes in the exchange rate between foreign currencies and the U.S. dollar. The risk of investing in foreign securities may be greater with respect to securities of companies located in emerging market countries. The value of developing or emerging market currencies may fluctuate more than the currencies of companies with more mature markets.*
- 11 *PURITAN and CONTRAFUND are registered service marks of FMR LLC. Used with permission.*
- 12 *Certain funds may be subject to style risk, which is the possibility that the investment style of its investment adviser will trail the returns of the overall market. In the past, different types of securities have experienced cycles of outperformance and underperformance in comparison to the market in general. For example, growth stocks have performed best during the later stages of economic expansion and value stocks have performed best during periods of economic recovery. Both styles may go in and out of favor. When the investing style used by a fund is out of favor, that fund is likely to underperform other funds that use investing styles that are in favor.*
- 13 *T. Rowe Price® is a registered trademark of T. Rowe Price Group, Inc. - all rights reserved.*
- 14 *Funds that invest primarily in mid-capitalization companies involve greater risk than is customarily associated with investments in larger, more established companies. Equity securities of mid-capitalization companies generally trade in lower volume and are generally subject to greater and less predictable price changes than the securities of larger companies.*
- 15 *Funds that invest primarily in small-capitalization companies involve greater risk than is customarily associated with investments in larger, more established companies. Equity securities of small-capitalization companies are generally subject to greater price volatility than those of larger companies due to less certain growth prospects, the lower degree of liquidity in the markets for their securities, and the greater sensitivity of smaller companies to changing economic conditions. Also, small-capitalization companies may have more limited product lines, fewer capital resources and less experienced management than larger companies.*
- 16 *Sector funds tend to be riskier and more volatile than the broad market because they are generally less diversified and more volatile than other mutual funds.*

Annuity Information

The table below focuses on the annuity options under the plan. Annuities are insurance contracts that provide a guaranteed stream of payments at regular intervals. Annuities are issued by insurance companies. Guarantees of an insurance company are subject to its long-term financial strength and claims-paying ability.

Notice Regarding Default Investments

You have the right to direct the investment of assets in your account to any of the investments offered under your plan, at no additional cost to you. Use your plan's enrollment form to provide allocation instructions for the investment of contributions to your account. After completing the enrollment process, you may provide allocation instructions, or change the election made on your enrollment form, by contacting ICMA-RC's Investor Services toll-free at 800-669-7400, or online using Account Access at www.icmarc.org.

In the absence of valid allocation instructions for your account, all assets will be invested in the default fund selected by your employer until additional instructions are received from you. More information regarding the default fund selected by your employer is available by contacting ICMA-RC's Investor Services.

Increase your chances of achieving your retirement savings goals by giving careful consideration to the benefits of a well-balanced and diversified portfolio. Spreading your assets among different types of investments can help you achieve a favorable rate of return, while minimizing the risk of losing money in your retirement account. Although diversification is not a guarantee against loss, it can be an effective strategy to help manage investment risk.

Additional information regarding the investment options available to your plan, including the default fund chosen by your employer, is available by contacting ICMA-RC's Investor Services.

Our Privacy Policy. Protecting your privacy is important to us. In providing financial services and investment products to you, we collect certain nonpublic personal information about you. Our policy generally is to keep this information strictly confidential, and to use or disclose it as needed to provide services to you, or as permitted or required by law or by you. Our privacy policy applies equally to our former customers and investors, as well as individuals who simply inquire about the services or investments we offer. We may change this privacy policy in the future upon notification to you.

Information We Collect. The nonpublic personal information we have about you includes information you give us when you open an account, invest in the VantageTrust Funds, or VantageTrust II Funds, or write or call us, such as your name, address, social security number, employment, investment objectives and experience, financial circumstances, and investment transactions and holdings.

Information We Disclose. We disclose nonpublic personal information about you to our affiliates, and to outside firms that help us provide services to you, for use only for that purpose. If you elect to invest in ICMA-RC's Managed Accounts Program or in the VantageTrust Retirement IncomeAdvantage Fund, ICMA-RC will share information necessary to make these products and services available to you with Morningsar Investment Management LLC, a registered investment adviser and a subsidiary of Morningstar, Inc. and Prudential Retirement Insurance and Annuity Company, the third party firms with which ICMA Retirement Corporation has contracted in connection with these products and services, respectively.

[Note: The following applies to all states except California and New York State.] We may also disclose nonpublic personal information to nonaffiliated third party financial institutions with which we have established, or may in the future establish, relationships in order to offer select financial products of interest to our customers. Currently, ICMA Retirement Corporation has established a relationship with M&T Bank for enrollment and information services in connection with ICMA Retirement Corporation's 457 Deferred Compensation Program in certain jurisdictions [applicable for participants in plans located in Maryland (excluding the metropolitan DC area), Pennsylvania and West Virginia]. ICMA Retirement Corporation also has contracted with Morningstar Investment Management LLC, a registered investment adviser and subsidiary of Morningstar, Inc to make available a Retirement Readiness Report to employees of 401 and 457 plan sponsors that elect this optional service for their employees. Before any additional third party relationships are added, they must be approved by the Board of Directors of the ICMA Retirement Corporation. Once approved, ICMA Retirement Corporation will notify you of any additional third party relationships in future publications of this privacy policy.

You have the right to stop us from disclosing nonpublic personal information about you to these parties, except as permitted or required by law. To do so, call us at 800-827-2710. If you do not notify us that you wish to block disclosure of this nonpublic personal information, we will allow information to be sent to you from all third party financial institutions with which we have established relationships.

How We Safeguard Your Information. We restrict access to nonpublic personal information about you to those persons who need to know it or who are permitted or required by law or by you to receive it. We maintain physical, electronic and procedural safeguards to protect the confidentiality of your information.

Some of the funds, services, or products described in this Privacy Policy may not be available to your Plan, and all are subject to change.

Disaster Recovery Plan

ICMA Retirement Corporation (ICMA-RC) and its subsidiaries, including ICMA-RC Services, LLC and VantageTrust Transfer Agents, LLC (collectively, "ICMA-RC") are committed to protecting the assets of our customers and being prepared to quickly recover and resume operations in the event of a significant business interruption. We have always regarded this as an obligation to our customers and have allocated resources to ensure our ability to meet this commitment. These capabilities are designed to:

- Provide for the complete recovery of our technology infrastructure and data.
- Consider the impact of various types of potential interruptions and prepare an appropriate strategy for each.
- Enable ICMA-RC to continue to perform our critical business functions and minimize the impact to our customers.

The goal of our Disaster Recovery Plan is to be able to recover and resume business operations within 24 hours after the onset of a situation that warrants a disaster declaration. To accomplish this we have:

- Detailed plans for every division across our corporation that identify specific actions to be taken, personnel requirements to meet those actions, and other resources necessary to restore critical processes and resume business operations. Keep in mind that the ability to conduct trading and other transactional activity is dependent on the stock market being open and the availability of telecommunications to perform the trade.
- Contracted with a national information availability provider for alternative workspace for our personnel, network infrastructure and telecommunications infrastructure, in the event that our facility is unusable because of an incident. This enables ICMA-RC to respond to your inquiries and provide information regarding your accounts during an incident.
- Established processes for the backup of data. Complete copies of production data are backed up at the completion of a daily processing cycle and are stored offsite at multiple secure locations. For critical data, backups are sent periodically throughout the day to a remote server. In addition, information required by regulatory agencies is archived and stored offsite at secure locations.
- Tested the effectiveness of our Disaster Recovery Plan to ensure that we have the ability to continue to operate in the event of an incident. Semi-annual exercises are conducted, with active annual participation of over 20% of ICMA-RC employees, to test the recovery of the network infrastructure and the functionality of all critical applications and processes.

If you have any questions about this plan or ICMA-RC please contact an Investor Services Representative at 800-669-7400.

VT Retirement IncomeAdvantage Fund

SUMMARY IMPORTANT CONSIDERATIONS

The VT Retirement IncomeAdvantage Fund, offered through your retirement plan, is specifically designed to help plan participants secure reliable retirement income they won't outlive.

This summary is intended to serve as an introductory explanation of the benefits and features of the VT Retirement IncomeAdvantage Fund. Before investing, please read the more complete explanation of this product, as well as the definitions for the terms highlighted in bold, in the *VT Retirement IncomeAdvantage Fund Important Considerations*. You can obtain this document by contacting ICMA-RC directly, using the contact information on the back page of this document.

ACCUMULATION PHASE

Typically, your income during retirement will depend on how much you've saved by the time you retire. But market downturns as you approach and enter retirement may take your retirement savings — and your retirement dreams — down with them. That's why the VT Retirement IncomeAdvantage Fund was designed to let you keep investing in the market, while reducing the risk that losses may impact your income.

WHAT IS THE VT RETIREMENT INCOMEADVANTAGE FUND PORTFOLIO?

The **VT Retirement IncomeAdvantage Fund** is a diversified, professionally managed portfolio that uses the fundamentals of asset allocation to create an asset mix best suited for individuals approaching and in retirement.

The VT Retirement IncomeAdvantage Fund includes a feature that sets a guaranteed floor or "**Income Base**" for calculating your lifetime income amount.

Once Prudential begins tracking the **VT Retirement IncomeAdvantage Fund Guarantees**, as described in "Additional Information," a **Guarantee Fee** is assessed.

This fee is in addition to the standard investment management and recordkeeping fees. See the "Fees" section of "Additional Information" for more details.

For a detailed description of the asset mix that comprises the VT Retirement IncomeAdvantage Fund, please refer to the Fund's Fact Sheet and the Fund's Disclosure Memorandum available online through ICMA-RC's Account Access website at icmarc.org or by calling the number ICMA-RC at 800-669-7400.

INVESTING IN THE VT RETIREMENT INCOMEADVANTAGE FUND: CONTRIBUTIONS, TRANSFERS, AND ROLLOVERS

Investing in the VT Retirement IncomeAdvantage Fund is similar to investing in other funds offered in your retirement plan. All you need to do is transfer some or all of your current balance and/or direct future **Contributions** to the VT Retirement IncomeAdvantage Fund. If your retirement plan permits, you may also roll over balances from previous employers' retirement plans.

Note: To maintain the VT Retirement IncomeAdvantage Fund Guarantees, you must invest in one or more of the VT Retirement IncomeAdvantage Funds. Like all variable investments, these funds may lose value. Guarantees are based on the claims-paying ability of Prudential Retirement Insurance and Annuity Company (Hartford, CT) and are subject to certain limitations, terms, and conditions. Withdrawals or transfers out of VT Retirement IncomeAdvantage Fund during the Accumulation Phase proportionately reduce guaranteed values and may even eliminate them. During the Withdrawal Phase, withdrawals in excess of the Lifetime Annual Withdrawal Amount will reduce future guaranteed withdrawals proportionately and may even eliminate them.

Your Market Value

Your **Market Value** is the monetary value of the VT Retirement IncomeAdvantage Fund. Similar to other funds offered through your retirement plan, the Market Value will rise and fall based on market performance. This value increases dollar-for-dollar every time you add money to the VT Retirement IncomeAdvantage Fund. Conversely, it is reduced dollar-for-dollar every time you remove money from the VT Retirement IncomeAdvantage Fund. This amount is not guaranteed and may lose value at any time.

If you decide to remove all of your money from the VT Retirement IncomeAdvantage Fund, you will receive your Market Value as of the effective date of your request. This will bring the Market Value in the VT Retirement IncomeAdvantage Fund to zero (\$0) and all the VT Retirement IncomeAdvantage Fund Guarantees will be cancelled.

Your Income Base

Your Income Base is used solely to determine your **Lifetime Annual Withdrawal Amount** once you begin taking **Withdrawals** from the VT Retirement IncomeAdvantage Fund. It does not represent an account balance and cannot be withdrawn.

Impact of Contributions and Withdrawals

Every Contribution you make into the VT Retirement IncomeAdvantage Fund increases your **Highest Birthday Value** dollar-for-dollar. Every **Withdrawal** out of the VT Retirement IncomeAdvantage Fund reduces your Highest Birthday Value proportionately.

YOUR DECISION TO LOCK-IN

You can choose when and how you want to establish or “**Lock-In**” your guaranteed lifetime income from the VT Retirement IncomeAdvantage Fund. Prudential uses your Income Base and **Guaranteed Withdrawal Percentage** to set your Lifetime Annual Withdrawal Amount.

Your Guaranteed Withdrawal Percentage is based on your age when you Lock-In and whether you elect to guarantee benefits for only you, or for both you and your spouse or civil union partner. Keep in mind that if you

elect the **Spousal Benefit** and your spouse or civil union partner is younger than you are, then your spouse’s or civil union partner’s age will be used to determine this percentage. The specific ages and percentages are:

Age at Lock-In	Benefits for You (Single Benefits)	Benefits for You and Your Spouse or Civil Union Partner (Spousal Benefit)
55–64	4.25%	3.75%
65–69	5.00%	4.50%
70+	5.75%	5.25%

A **Withdrawal Period** is one year starting on your birthday and ending the day before your next birthday.

Once your Lifetime Annual Withdrawal Amount is determined, Prudential guarantees that you can withdraw this amount each Withdrawal Period for the rest of your life. If market performance or your Lifetime Annual Withdrawals reduce the Market Value to zero (\$0), Prudential will continue to fund your Lifetime Annual Withdrawal Amount from its own assets for as long as you live (and your spouse or civil union partner lives, if applicable).

Certain actions you or your retirement plan take could reduce or eliminate this value.

The VT Retirement IncomeAdvantage Fund offers a Spousal Benefit that lets you give your spouse or civil union partner the option of receiving your Lifetime Annual Withdrawal Amount for the rest of his or her life, should he or she outlive you. You must choose whether to elect the Spousal Benefit when you Lock-In. **This decision is irrevocable and cannot be changed once you have locked-in.**

WITHDRAWAL PHASE

The Lifetime Annual Withdrawal Amount is the grand total you can take each Withdrawal Period without reducing future guarantees. You can take this grand total all at once or in as many increments as you like, subject to your retirement plan’s rules.

You can increase your Lifetime Annual Withdrawal Amount during the **Withdrawal Phase** in two

ways: positive investment performance and additional Contributions. You will need to contact ICMA-RC directly to change any **Systematic Withdrawal** amount following an increase to your Lifetime Annual Withdrawal Amount.

DECREASING YOUR LIFETIME ANNUAL WITHDRAWAL AMOUNT—EXCESS WITHDRAWALS

Withdrawing more than your Lifetime Annual Withdrawal Amount from the VT Retirement IncomeAdvantage Fund within a given Withdrawal Period will lower your Lifetime Annual Withdrawal Amount in subsequent Withdrawal Periods. We call these **Excess Withdrawals**. **If you bring your VT Retirement IncomeAdvantage Fund Market Value to zero (\$0) by taking an Excess Withdrawal, your current VT Retirement IncomeAdvantage Fund will expire and will no longer provide a Lifetime Annual Withdrawal Amount.**

You will need to contact ICMA-RC directly to change any Systematic Withdrawal amount following a decrease to your Lifetime Annual Withdrawal Amount. **Failure to adjust the Systematic Withdrawal arrangement is likely to cause you to take Excess Withdrawals, which can reduce and may completely eliminate your Lifetime Annual Withdrawal Amount.**

REQUIRED MINIMUM DISTRIBUTIONS

You may be required to withdraw more than your Lifetime Annual Withdrawal Amount to comply with IRS rules. Please see the *VT Retirement IncomeAdvantage Fund Important Considerations* for details on how this may affect your Lifetime Annual Withdrawal Amount.

GUARANTEED PAYOUT PHASE

We refer to the period when Prudential continues making Lifetime Annual Withdrawal Amount payments to you after your market value falls to zero (\$0) as the **Guaranteed Payout Phase** of the VT Retirement IncomeAdvantage Fund Guarantees. Prudential will directly send your Lifetime Annual Withdrawal Amount to your retirement plan account and it will be invested in the fund designated by you or your retirement plan to receive such amounts.

GENERAL INFORMATION

LEAVING YOUR RETIREMENT PLAN—TRANSFERRING YOUR VT RETIREMENT INCOMEADVANTAGE FUND GUARANTEES

If you choose to leave your retirement plan, you may be able to transfer or roll over your VT Retirement IncomeAdvantage Fund Guarantees into a variable annuity contract, which is registered with the Securities and Exchange Commission, available through Prudential Retirement®. **This contract may have substantially different fees, investments, and provisions affecting the guarantees.**

You should read the materials concerning such contract carefully, including its prospectus, and consider the benefits and differences between it and the VT Retirement IncomeAdvantage Fund as offered through your retirement plan.

If you roll any portion of your VT Retirement IncomeAdvantage Fund Market Value into anything other than a specific Prudential-issued variable annuity, all VT Retirement IncomeAdvantage Fund Guarantees associated with that portion will immediately cease.

If you have a VT Retirement IncomeAdvantage Fund benefit in more than one retirement plan, Prudential may limit your ability to combine VT Retirement IncomeAdvantage Fund Guarantees associated with those multiple plans under an IRA or Roth IRA.

VT RETIREMENT INCOMEADVANTAGE FUND — OPERATING WITHIN YOUR RETIREMENT PLAN

Subject to Plan Rules

Participation in the VT Retirement IncomeAdvantage Fund is a feature of your retirement plan, and is subject to the rules of your retirement plan. If your plan's rules are more restrictive than the VT Retirement IncomeAdvantage Fund's provisions, your retirement plan's rules will apply. Refer to your retirement plan document and other materials for more information.

Plan Actions—Fund Elimination

Your retirement plan generally can change investment options—including the VT Retirement IncomeAdvantage Fund—at any time. This could include closing a fund to new Contributions or

even eliminating it entirely. If this occurs, and **no other investment eligible for VT Retirement IncomeAdvantage Fund Guarantees is available**, your **VT Retirement IncomeAdvantage Fund Guarantees** will end and your VT Retirement IncomeAdvantage Fund Market Value will move as directed by you or your retirement plan.

Prudential's Action—Fund Closing

Prudential reserves the right to stop accepting Contributions into the VT Retirement IncomeAdvantage Fund, and to change or eliminate the eligibility of funds for its guarantees. If Prudential stops accepting Contributions, and the Fund remains an eligible investment, any existing money will continue to receive guarantees.

ADDITIONAL INFORMATION

Prudential Retirement Insurance and Annuity Company (Prudential), CA COA #08003, Hartford, CT. Neither Prudential nor ICMA-RC guarantees the investment performance or return on contributions to Prudential's Separate Account. You should carefully consider the objectives, risks, charges, expenses, and underlying guarantee features before purchasing this product. Prudential may increase the Guarantee Fee in the future, from 1.00% up to a maximum of 1.50%. Like all variable investments, this Fund may lose value. Availability and terms may vary by jurisdiction; subject to regulatory approvals. Annuity contracts contain exclusions, limitations, reductions of benefits, and terms for keeping them in force. Guarantees are based on Prudential's claims-paying ability. This annuity is issued under Contract form # GA-2020-TGWB4-0805-RC.

ICMA-RC provides recordkeeping services to your plan and is the investment manager of the underlying Prudential Separate Account. Prudential or its affiliates may compensate ICMA-RC for providing these and related administrative services in connection with the Fund.
